

GRP TACTILE PLATES**MATERIAL CHARACTERISTICS****Quality Assurance**

Manufactured in accordance with our ISO 9001 accredited Quality Management System, the structural integrity of the specified material is high grade. A suggested life span of 25 years is expected, but not guaranteed, and is based on a number of variables: environmental, installation process, maintenance, loading and traffic conditions.

**Slip Resistance**

The integral angular quartz gritted surface has been Tested in accordance with BS7976-2 and provides an exceptional level of slip resistance. Lifespan depends on frequency of use.

**uV Stable**

All panels are manufactured with a high quality UV inhibitor to prevent UV degradation.

**Self-Coloured**

All Quartzgrip® tactile flooring is pigmented throughout during manufacture, and does not require any secondary treatment such as powder coating or paint spraying. Standard colour is Beige (RAL1003).

**Chemical Resistance**

GRP is resistant to a wide range of chemicals, across a wide temperature spectrum. GRP can be made using different resin systems to achieve specific chemical resistant properties. Please refer to our separate chemical resistance chart SOS-DST-10.

**Fire Resistance**

All products contain a fire resistant additive and comply with Euro Class 1 and ISO11952-2. Performance is equivalent to ASTM E84 class 1 and BS476 part 7class2 flame spread to give a 30 minute burn time.

**Light Weight and Durable**

Weighing around 1/3 of the alternative solutions, Quartzgrip® moulded fibreglass is relatively lightweight in comparison, and can be manually manoeuvred into place without the requirement for mechanical assistance.

Quartzgrip® tactile floor is exceptionally durable, with an ability to withstand impact, reducing the risk of permanent bucking and deformation. Floor panels measure 400 x 400mm. They are easy to install, surface mounting with minimal downtime or groundwork required. Panels are hardwearing and weather resistant. They are: ideal for internal as well as external applications, and DDA and Building Regulations Compliant.
